

Welcome address

15:00 Akimichi Morita - Department of Geriatric and Environmental Dermatology Nagoya City University Graduate School of Medical Sciences

Afternoon Seminar - Psoriasis treatment strategy considering Psoriatic Disease

15:40 **Chairs: Tetsuya Honda & Mayumi Komine**

Takemichi Fukasawa - Department of Dermatology and Department of Clinical Cannabinoid Research, The University of Tokyo Graduate School of Medicine

Significance of early treatment intervention from the concept of psoriatic disease

Akimichi Morita - Department of Geriatric and Environmental Dermatology Nagoya City University Graduate School of Medical Sciences

Start Strong, Go long: Long-term Experience with Guselkumab of Psoriasis Treatment in Japan

Co-sponsored by Janssen Pharmaceutical K.K / TAIHO PHARMACEUTICAL CO., LTD.

Special Lecture 1

17:00 **Chairs: Motoki Nakamura & Toshiyuki Yamamoto**

Thomas Haarmann-Stemmann - IUF – Leibniz-Research Institute for Environmental Medicine

Exposure to airborne particulate matter increases the risk for atopic dermatitis: Clues for an involvement of NADPH-dependent oxidoreductases

Jan Simon - Department of Dermatology, Venerology and Allergology Leipzig University Medical Center

Psoriasis and free fatty acids - from pathogenesis to therapeutic intervention

Evening Seminar - Pathogenesis and Treatment of GPP

18:00 **Chairs: Hideki Fujita & Tomotaka Mabuchi**

Megumi Kishimoto - Department of Dermatology, Jichi Medical University

Differences in pathogenesis and clinical symptoms between GPP and PsV

Masahiro Kamata - Department of Dermatology, Teikyo University School of Medicine
Treatment Goals and Strategies for GPP

Co-sponsored by Nippon Boehringer Ingelheim Co.,Ltd

19:30

Welcome Reception

6:00

Asakusa Walking

Morning Seminar – Future of Psoriasis Treatment

8:50 **Chairs: Ayumi Yoshizaki & Rei Watanabe**

Noritaka Oyama - Department of Dermatology, Faculty of Medical Sciences, University of Fukui

Milestones in JAK Family Inhibitors: Future Perspectives of a Tyk2 inhibitor Deucravacitinib

Emi Nishida - Department of Dermatology, Nagoya City University West Medical Center

The Importance of Shared Decision Making (SDM) and long-term maintenance treatment for psoriasis

Co-sponsored by Bristol-Myers Squibb

Special Lecture 2

10:00 **Chairs: Akimichi Morita & Shinji Shimada**

Michael Hertl - Department of Dermatology and Allergy, University of Marburg

Targeted therapies in inflammatory skin disorders - from the signature to treatment

Thomas Ruzicka - Department of Dermatology and Allergology, Ludwig-Maximilian University Munich

Renaissance of Syphilis

Scientific Sessions 1

11:00 **Chairs: Ichiro Kurokawa & Taiki Isei**

1. Misaki Kusano - Department of Dermatology, Fukushima Medical University
Neutrophil Gelatinase-Associated Lipocalin is a useful biomarker for generalized pustular psoriasis
2. **Withdrawal of presentation**
3. Ichiro Kurokawa - Department of Dermatology, Meiwa Hospital Dermatology
A case of acne conglobata treated with comprehensive therapy
4. Natsumi Norikawa - Department of Dermatology, Fukushima Medical University
Characteristics of clinicopathological features of granulomatosis with polyangiitis in Japanese patients

Luncheon Seminar – New solution for leaving limitation behind

12:10 **Chairs: Akihiro Asahina & Yukari Okubo**

Megumi Kishimoto - Department of Dermatology, Jichi Medical University

Significance of IL-17A/F Inhibition in the Treatment of Plaque Psoriasis and Expectations for BKZ to Manage Plaque Psoriasis

Shujiro Hayashi - Department of Dermatology, Dokkyo Medical University

The approach to early detection for PSA with Dermatologists

Co-sponsored by UCB Japan Co. Ltd.

Scientific Sessions 2

13:20 **Chairs: Shujiro Hayashi & Akiko Arakawa**

5. Mayu Sato - Department of Dermatology, Fukushima Medical University
A comparative study of cutaneous manifestations of adult-onset Still's disease between young-onset and elderly-onset patients.
6. Shown Tokoro - Department of Dermatology, Dokkyo Medical University
Visualizing the skin lipid changes during keratinization by imaging mass spectrometry
7. Kana Kuroki - Department of Dermatology, Tokyo Medical University
Sphingosine 1-phosphate receptor 2 in keratinocyte regulates psoriasis generation
8. Oki Watanabe - Department of Dermatology, Nagoya City University Graduate School of Medical Sciences
Efficacy and Safety of Ultraviolet A1 phototherapy for the treatment of palmoplantar pustulosis

Scientific Sessions 3

14:20 **Chairs: Takamichi Ito & Maki Yoshimitsu**

9. Katharina Maria Rolfes - IUF – Leibniz Research Institute for Environmental Medicine
UVB radiation-induced skin carcinogenesis and the impact of low dose UVA irradiation
10. Liya Wang - Department of Dermatology, Kyushu University
Paclitaxel-induced scleroderma in a patient with primary cardiac angiosarcoma

11. Motoki Nakamura - Department of Geriatric and Environmental Dermatology, Nagoya City University Graduate School of Medical Sciences
Spatial single-cell analysis of Merkel cell carcinoma treated with immune checkpoint inhibitors
12. Takashi Satoh - University Hospital, LMU Munich
Transcriptional profiling and single cell RNA-seq of immune checkpoint inhibitor-associated toxic epidermal necrolysis and lichenoid reactions

Closing remarks

- 15:20 Akimichi Morita - Department of Geriatric and Environmental Dermatology Nagoya City University Graduate School of Medical Sciences
