

Welcome & Opening address

17:00 Toshiyuki Yamamoto - Department of Dermatology, Fukushima Medical University, Japan

Thomas Ruzicka - Department of Dermatology and Allergology, Ludwig-Maximilian University Munich

Opening Special Lecture

17:10 Toshiyuki Yamamoto - Department of Dermatology, Fukushima Medical University, Japan

Thomas Ruzicka - Department of Dermatology and Allergology, Ludwig-Maximilian University Munich

Evening Seminar 1 – Atopic Dermatitis / Dermatomyositis

18:00 **Chairs: Yasuhiro Nakamura & Yumi Aoyama**

Hiroyuki Murota - Department of Dermatology, Nagasaki University, Japan

Sweat: Unveiling the Delicate Balance in Skin Health and the Impact on Atopic Dermatitis

Manabu Fujimoto - Department of Dermatology, Osaka University, Japan

Reshaping dermatomyositis by autoantibody responses

Co-sponsored by Maruho Co., Ltd.

19:15

Welcome Reception

Morning Seminar 1 – Impact of Dermatoscopes on Examination

7:30 **Chair: Michael Hertl**

Thomas Ruzicka - Department of dermatology and allergy, Ludwig-Maximilians-University of Munich, Germany

Impact of Dermatoscopes on Examination

Co-sponsored by HEINE Optotechnik GmbH & Co. KG, Germany

Keynote Lecture 1

8:05 **Chair: Akimichi Morita**

Michael Hertl - Department of Dermatology and Allergy, University of Marburg, Germany

Pemphigus and pemphigoid: from pathogenesis to targeted therapy

Chair: Norito Katoh

Tamio Suzuki - Department of Dermatology, Faculty of Medicine, Yamagata University

Chemical-induced vitiligo: the mechanism of melanocyte death

Scientific Sessions 1

8:40 **Chairs: Yumi Aoyama & Andreas Wollenberg**

O-1. **Withdrawal of presentation**

O-2. Yuki Matsuyama - Department of Dermatology, Dokkyo Medical University

Mild phenotype of a patient with vascular Ehlers–Danlos syndrome and COL3A1 duplication mutation without alteration in the [Gly-X-Y] repeat sequence

O-3. Takehiro Nakamura - Fukushima medical university

Palmoplantar pustulosis-like lesions following nemolizumab treatment for atopic dermatitis and prurigo nodularis

O-4. Erina Taniguchi - Department of Dermatology, Graduate School of Medicine, Osaka Metropolitan University, Osaka, Japan.

A case of congenital alopecia areata

O-5. Hiroshi Kasamatsu - Department of Dermatology, Faculty of Medical Sciences, University of Fukui

A rare case of clinically aggressive pancreatic panniculitis caused by an occult neuroendocrine tumor in the corresponding organ

O-6. Ryuto Mukaiyama - Department of Dermatology, Fukushima Medical University

Non-episodic angioedema associated with eosinophilia following influenza vaccination

Chairs: Shin Morizane & Jan Simon

- O-7. Farzan Solimani - Charité - Universitätsmedizin Berlin
Deciphering the CD4+ T cell compartment in pemphigus
- O-8. **Withdrawal of presentation**
- O-9. Katharina Kommoss - Department of Dermatology, University Hospital Heidelberg, Heidelberg, Germany
Cardiovascular comorbidity in psoriasis patients – a prospective study on prevalence, patient knowledge and interdisciplinary care
- O-10. Jan Simon - Department. of Dermatology, Venerology and Allergology Leipzig University Medical Center
Modulation of dietary fatty acids improves psoriasis and dampens the inflammatory activation status
- O-11. Masaya Kawamoto - Department of Dermatology, Okayama University Graduate School of Medicine
Disseminated Lomentospora prolificans infection presenting with multiple cutaneous lesions in an immunocompromised host
- O-38. Masaki Uchiyama - Department of Dermatology, Tokyo Medical University
A retrospective study of clinical and dermoscopic observation in the patients with chronic, severe AA treated with oral baricitinib.

10:00  **Coffee Break**

Keynote Lecture 2

10:20 **Chair: Taiki Isei**

Yasuhiro Nakamura - Department of Skin Oncology/Dermatology, Saitama Medical University International Medical Center
Special aspects of skin cancer in East-Asian population

Chair: Masato Ishikawa

Annegret Kuhn - University of Passau, Passau, Germany, and Amsterdam University Medical Center, Amsterdam, The Netherlands
Lupus Erythematosus Tumidus: Navigating a Rare Disease Towards a Promising Outcome.

Scientific Sessions 2

10:55 **Chairs: Hiroyuki Murota & Nicolas Hunzelmann**

O-12. Bernadett Kurz - Department of Dermatology, University Hospital Regensburg, 93042 Regensburg, Germany

The role of UV-induced DNA damage, matrix metalloproteases and mi-RNAs in the pathogenesis of cutaneous and systemic lupus erythematosus

O-13. Osei Abe - Department of Dermatology and Allergology, Juntendo University Shizuoka Hospital

A case of pediatric chronic discoid lupus erythematosus

O-14. Miyuki Yamamoto - Department of Dermatology, Fukushima Medical University

IgA vasculitis triggered by tsutsugamushi disease

O-15. Yoji Hirai - Department of Dermatology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences

Coexpression of Natural Killer Cell Antigens by T-cell Large Granular Lymphocytes in Hydroa Vacciniforme Lymphoproliferative Disorder.

O-16. Nao Kusutani - Department of Dermatology, Osaka City General Hospital

Random skin biopsy for diagnosis of intravascular lymphoma: a four-year experience in a single institute

O-17. Maki Takada - Department of Dermatology, Fukushima Medical University

Hodgkin's lymphoma developed during treatment of bullous lichen planus

Chairs: Takashi Oono & Dario Didona

O-18. Anastasia Sophie Vollmer - Department of Dermatology, University medical Center Heidelberg, Germany

AI-support for differentiating cutaneous melanomas from melanoma simulators. Results from a cross-sectional study.

O-19. Takamichi Ito - Department of Dermatology, Kyushu University

Trophoblast cell surface antigen 2: A potential therapeutic target for extramammary Paget disease

O-20. Mai Endo - Department of dermatology, Fukushima medical university school of medicine

Bilateral axillary basal cell carcinoma: a case report

O-21. Maki Yoshimitsu - Department of Geriatric and Environmental Dermatology, Nagoya City University Graduate School of Medical Sciences, Nagoya, Japan

Induction of tertiary lymphoid structures by chemokines in malignant melanoma

O-22. Azusa Miyashita - Department of Dermatology and Plastic Surgery, Faculty of Life Sciences, Kumamoto University

Real-world efficacy of chemotherapy in patients with advanced extramammary Paget's disease : A retrospective, multicenter study of 204 Japanese patients.

Luncheon Seminar – New solution for leaving limitation behind12:25 **Chairs: Akimichi Morita & Toshiyuki Yamamoto**

Tomotaka Mabuchi - Department of Dermatology, Tokai University School of Medicine
Treatment Strategies for psoriasis and psoriatic arthritis

Shin Morizane - Department of Dermatology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences

Pathogenesis of Psoriasis and Significance of IL-17A/F

Co-sponsored by UCB Japan Co. Ltd.

Keynote Lecture 313:30 **Chair: Tomotaka Mabuchi**

Nobuo Kanazawa - Department of Dermatology, Hyogo Medical University
Genetics of neutrophilic dermatosis

Chair: Toshiyuki Yamamoto

Nicolas Hunzelmann - Department of Dermatology, University of Cologne
Scleroderma - state of the art 2024

Scientific Sessions 314:05 **Chairs: Yukari Okubo & Akiko Arakawa**

O-23. Yasuaki Ikuno - Department of Anatomy, Shiga University of Medical Science
Induction of tissue-specific premature stem cell aging via Lef1 deficiency promotes senescence-like deterioration in remote organs

O-24. Akiko Arakawa - Ludwig Maximilian University of Munich
Targeting Autoantigen in Psoriasis: The Role of CD8+ T Cells and Clinical Implications

O-25. Motoki Nakamura - Department of Geriatric and Environmental Dermatology, Nagoya City University Graduate School of Medical Sciences
Blockade of glucose-6-phosphate dehydrogenase induces immunogenic cell death and accelerates immunotherapy

O-26. Nina Reuvers - Department of Dermatology, University Hospital Düsseldorf, Medical Faculty, Heinrich-Heine-University Düsseldorf, Düsseldorf, Germany
Modulation of microbe-host interaction in rosacea during topical ivermectin treatment

O-27. Katharina Klara Hahn - Department of Dermatology, Venereology and Allergology, University Medical Center Goettingen
Establishment of a T Helper 2 Cell-Immunocompetent and Sensory Innervated Full-Thickness Skin Model to Study Neurocutaneous Inflammation in Atopic Dermatitis

O-28. Johanna Lena Schoen - Rudolf Schönheimer Institute of Biochemistry, Medical Faculty, Leipzig University, Leipzig, Germany
The Adhesion-G protein-coupled receptor Flamingo (FMI-1) regulates extracellular matrix composition in the cuticle of *Caenorhabditis elegans*

Afternoon Seminar – What is the Goal of Treatment for AA and AD?15:00 **Chairs: Tamio Suzuki & Norito Katoh**

Taisuke Ito - Department of Dermatology, Hamamatsu University School of Medicine (Shizuoka, Japan)

Positioning of JAK inhibitors in the treatment of alopecia areata in Japan

Ken Igawa - Department of Dermatology, Dokkyo Medical University, School of Medicine (Tochigi, Japan)

Atopic Dermatitis Treatment UpToDate: The Value of JAK Inhibitors and the Potential of Cibinqo

Co-sponsored by Pfizer Japan Inc.

Members' Assembly of the GJSD

16:10-16:55

Keynote Lecture 416:55 **Chair: Takamichi Ito**

Takashi K. Satoh - University Hospital, LMU Munich, Munich, Germany

Deep Phenotyping of Inflammatory Skin Diseases

Chair: Andreas Wollenberg

Schön Michael Peter - Department of Dermatology, Venereology and Allergology Dean for Academic Affairs University Medical Center Göttingen

Complex immune regulations in chronic inflammation exemplified by psoriasis

Chair: Akimichi Morita

Hiroaki Iwata - Department of Dermatology, Gifu University Graduate School of Medicine

Mystery of direct immunofluorescence in bullous pemphigoid

Evening Seminar 2 – Approaches to Inflammatory Skin Diseases18:00 **Chairs: Shinichi Sato & Hideyuki Ujiie**

Sayaka Shibata - Department of Dermatology, Faculty of Medicine and Graduate School of medicine, University of Tokyo, Tokyo, Japan

Inflammatory memory in skin diseases and the Significance of IL-23 Inhibition in Psoriasis

Takeshi Fukumoto - Division of Dermatology, Department of Internal Related, Graduate School of Medicine, Kobe University, Kobe, Japan

New therapeutic strategies for palmoplantar pustulosis with potentiality of IL-23 inhibition

Co-sponsored by AbbVie GK

Morning Seminar 2 – The importance of early treatment intervention in psoriasis and palmoplantar pustulosis - What is the optimal treatment guided by SDM?

7:30 **Chair: Michihiro Kono**

Tetsuya Higuchi - Department of Dermatology, Toho University Sakura Medical Center
Role of IL-23 in Psoriasis and Psoriatic Disease

Toshiyuki Yamamoto - Department of Dermatology, Fukushima Medical University, Japan

Palmoplantar pustulosis and palmoplantar pustular psoriasis

Co-sponsored by TAIHO PHARMACEUTICAL CO.,LTD. / Janssen Pharmaceutical K.K.

Scientific Sessions 4

8:40 **Chairs: Yoshio Kawakami & Annegret Kuhn**

- O-29. Kinuko Irie - Fukushima medical university
Effects of decanoic acid on imiquimod-induced psoriasis-like dermatitis in mice
- O-30. Stefanie Heyne - Department of Dermatology, University Hospital Carl Gustav Carus Dresden
Treatment of acquired angioedema with berotralstat
- O-31. Nobuhiro Takahashi - Department of Dermatology, Tokai University School of Medicine, Kanagawa, Japan
A case of severe hidradenitis suppurativa successfully treated with apremilast.
- O-32. Dario Didona - Philipps-Universität Marburg
Efficacy of apremilast in erosive lichen of the oral mucosa
- O-33. Ulrike Proske - Department of Dermatology, University Hospital Carl Gustav Carus at the Technical University Dresden, Germany
Topical treatment of disseminated superficial actinic porokeratosis (DSAP)
- O-34. Wirsching Hanna - Department of Dermatology and Allergy, Augsburg University Hospital, Augsburg, Germany
Multiple steroid-resistant, painful, brownish-erythematous plaques evolving in a sporotrichoid distribution pattern in a post-cancer patient with disrupted lymphatic drainage

Keynote Lecture 5

9:35 **Chair: Ken Igawa**

Andreas Wollenberg - Department of Dermatology and Allergy, Augsburg University Hospital, Augsburg, Germany

The Evolution of Atopic Dermatitis Management from Ancient Times to Today and Beyond

Chair: Hideyuki Ujiie

Eijiro Akasaka - Department of Dermatology, Hirosaki University Graduate School of Medicine

Genetic testing for porphyria

Chair: Thomas Ruzicka

Akiko Arakawa - Department of Dermatology, Shiga University of Medical Science

Autoantigen drives autoimmune CD8+ T-cell responses in psoriasis

Scientific Sessions 5

10:30 **Chairs: Shujiro Hayashi & Thomas Haarmann Stemmann**

O-35. Mari Nakanishi - Kyoto Prefectural University of Medicine Graduate School of Medical Science

Effects of oral Janus kinase inhibitors for dupilumab-uncontrolled atopic dermatitis and dupilumab-induced adverse events

O-36. Hiraku Kokubu - Department of Dermatology, Shiga University of Medical Science

Exploring novel quantitative methods for skin hardness

O-37. Miwa Ashida - Department of Dermatology, Nagasaki University Graduate School of Biomedical Sciences

Evaluation of sweating responses in patients with systemic connective tissue disorders using the quantitative sudomotor axon reflex test

Chair: Schön Michael Peter

O-39. **Withdrawal of presentation**

O-40. **Withdrawal of presentation**

O-41. **Withdrawal of presentation**

O-42. Kenta Nakamoto - Kawasaki Medical School

Deep learning-based automatic assessment and cluster analysis of atopic dermatitis: a model for predicting therapeutic efficacy of dupilumab

O-43. Mariko Kochi - Toho University Sakura Medical Centers

Case of epidermolysis bullosa simplex with KLHL24 gene mutation

12:00

Traveling to Shizuoka

18:00

Farewell Party & Closing address
